NFT Pack

All new users will receive an NFT pack that contains 5 NFTs, with varying degrees of rarity. They can purchase more in the web or mobile app. NFTs have a representation in the apps, but can also be deployed in augmented space owned by the user of the NFT. Various enhancements for an NFT can be purchased or programmed manually, and they can be turned on or off. Enhancements increase the value of an NFT.

Octopus NFT

Here is an example of an NFT.

Quantity: 1

Title: Octopus

NFT: 

Img Designer: N. Gagnon

OD: 01-12-21

Rarity: M

Value: \$1500
